Phase 04 - Arbitrator Review & Voting Options

The arbitrators need to write and submit to the platform a report justifying their decision
The arbitrators will need to indicate their primary and secondary decisions in their reports (example illustrated below)
The potential winning results/scenarios will be:

- (a) 5 out of 5 arbiters voting for 1 party
(b) 4 out of 5 arbiters voting for 1 party
(c) 3 out of 5 arbiters voting for 1 party
(d) Parties do not accept or agree on the results

- The split of the tokens for each of the above respective scenarios will be as follows:
(a) 95% shared equally between the winning arbiters, no losing arbiter, 5% to the winning party
(b) 85% shared equally between the winning arbiters, 10% for the losing arbiter, 5% to the winning party
(c) 75% shared equally between the winning arbiters, 20% shared equally between the losing arbiters, 5% to the winning party
(d) 20% staked from the parties shared equally between all the arbiters for their time and efforts spent

The arbitrators will need to indicate their primary and secondary decisions
in their reports (example illustrated below)
